

SAFETY LINE ANCHOR POINT AT150

1. Picture of the product

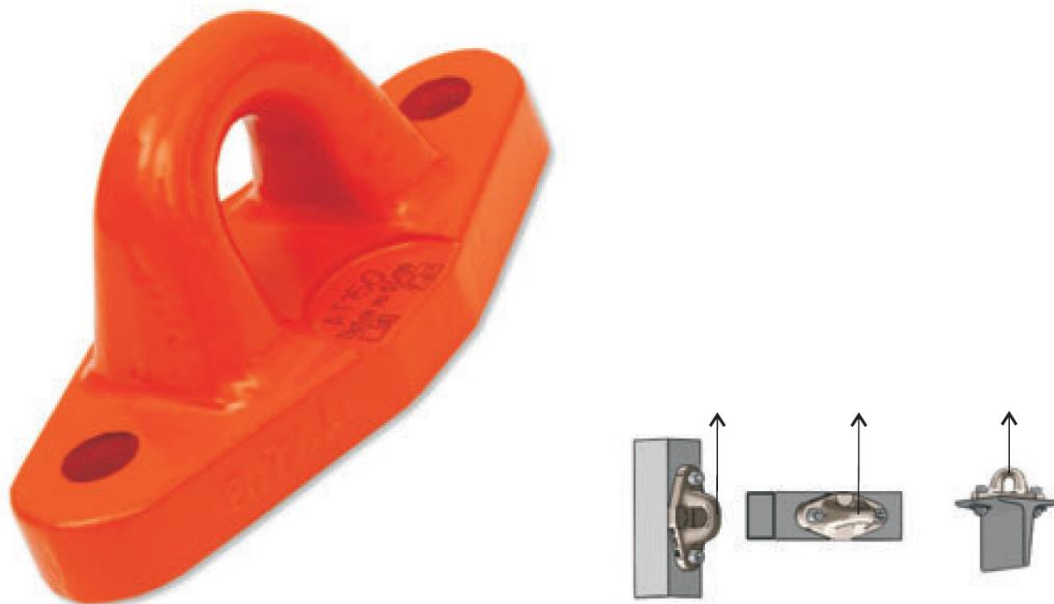

Figure 1. Anchor point and approved directions of use

2. Product description

A safety line anchor point with no restrictions on the direction of use. Well suited for attachment to a wall. Use EPDM rubber gaskets for sealing the fixture lead-throughs.

The anchor loop can be used as an anchor point for different kinds of attachment clips.

EN 795 class A anchor point.

Dimensions: 135 x 60 x 65 mm
